

## French Bulletin – Week 1

- At present it is unclear whether the DELF exam will take place.
- This week TYs were scheduled to have a test (essay on their work experience).
- They are doing this at home and will send to their teachers for marking. Relevant information and phrases have been shared with students.
- TYs have been assigned listening practice (links with audio files, questions and answers).
- TYs have been asked to watch a French movie or episodes of a series (links and suggestions sent).
- The DELF exam is 25% oral and 25% aural; using their time to watch authentic French material is very beneficial.
